RESIDENTIAL PAD CERTIFICATION

PERMIT #: _____ OWNER NAME: _____

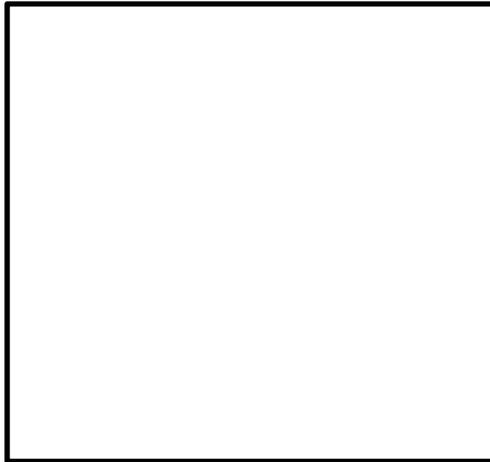

DATE: _____ ADDRESS: _____

Submit Pad Certification and items A-C to the building official prior to the placement of concrete for the building(s)

I hereby certify that the grading and earthwork for the SFR building(s) is complete and substantially complies with the requirements of **the COK approved Residential grading plan for this lot or parcel**, and the soils on this site are **Not expansive** and **Not collapsible**, and shall be assumed to have a **bearing capacity of 1,500psf**.

Engineering Firm Name: _____

Affix Seal, Sign, and Date

This Residential Pad Certification report shall include the following information:

- A. Site plan and description of the building pad(s) being certified on this lot or parcel.
- B. Soil compaction tests log showing test locations, elevations and density results.
- C. The name(s) of the approved special inspector(s) and any technicians that observed grading or foundation improvements.

Note: If the soils on this site have been graded and compacted following a Geotechnical report, use the **Commercial Pad Certification**.
