PUBLIC NOTICE

The City of Kingman Public Works Street Department is scheduled to complete the annual street pavement rehabilitation and chip sealing project during the first part of May. This project will greatly impact traffic flow on some major streets within the City of Kingman.

The first portion of the pavement rehabilitation project will include milling and re-paving a section of pavement in the intersection of Stockton Hill Road and Sycamore Avenue. This project is scheduled to begin at 7:00 p.m. on Monday, May 4th and is planned for completion by 3:00 p.m. Wednesday, May 6th. This project will greatly impact traffic flow on Stockton Hill Road with detours and lane restrictions. The Sycamore Avenue access to Wal*Mart will be closed to all traffic until the project is complete.

The following is an outline of expected closures and detour routes:

Monday, May 4th

From 7:00 p.m. to midnight Stockton Hill Road, northbound traffic will be restricted to one lane. Sycamore Avenue on the east side of Stockton Hill Road will be closed to all traffic.

Tuesday, May 5th

From midnight to approximately 8:00 a.m. Stockton Hill Road will be closed to all north and southbound traffic from Airway Avenue to Beverly Avenue. All traffic will be detoured to Western Avenue from Airway Avenue and from Beverly Avenue. Sycamore Avenue on the east side of Stockton Hill Road will be closed to all traffic.

From 8:00 a.m. Tuesday until 3:00 p.m. Wednesday, Stockton Hill northbound will be closed to one lane only. Southbound will be open to both lanes.

The City of Kingman will try to complete all necessary work to open Stockton Hill Road and Sycamore Avenue to all traffic by Wednesday morning, May 6th.

The second phase of the project will be street maintenance chip sealing that is scheduled to start on Thursday, May 7th and the construction phase should be completed by Wednesday May 13th.

This project includes several major streets within the City of Kingman and it is expected that there will be some major traffic delays with several streets being limited to one lane of traffic along with some short term street closures.

One major street closure will again include Stockton Hill Road from Beverly Avenue to Airway Avenue. On Sunday, May 10th from 6:00 a.m. to approximately noon, Stockton Hill Road from Beverly Avenue to Airway Avenue will be closed to all traffic. Traffic will be detoured to Western Avenue, from Beverly Avenue and from Airway Avenue.

The following is a list of streets included in this year's project along with the expected work dates.

For any questions about these projects please call Blake Chapman, City of Kingman Street Superintendent at 928-692-3135.
